

Comercialite 22" High bay

Construction

- Hydroformed body and reflector
- Anodized pure aluminum
- Reduced weight
- Open or enclosed versions available
- Emergency auxiliary lamp option
- Several mounting options
- Safety wire

SO EFFICIENT THAT IT PAYS ITSELF BACK IN TWO TO THREE YEARS

MORE DOWNLIGHT, AND BETTER SUITED FOR MOST APPLICATIONS THAN ACRYLIC REFRACTORS

Advanced optics

- Energy savings
- High efficiency with 86% CU
- Require 20% fewer fixtures
- Prevents lamp overheating
- Adjustable lamp position
- Low glare

Ballast

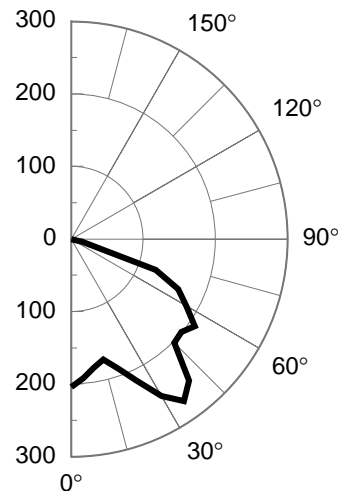

- Super low loss with only 6% losses
- Epoxy encased
- Quiet operation without hum
- Moisture resistant
- Ignitor for reliable start
- Shorter restrike time

Coefficient of utilization for Zonal cavity method
